FRONT-END DEVELOPER WITH REACT

AL RAFI AHMED

I am a front-end developer specializing in React.js, with expertise in building responsive, pixel-perfect user interfaces from Figma, PSD, and other design formats. I have a strong foundation in HTML, CSS (Bootstrap, Tailwind), and JavaScript, and I focus on delivering clean, modern, and user-centered web experiences.

PROJECTS

PRODUCT-INVENTORY-MANAGEMENT-SYSTEM

Developed a web-based inventory management system for multiple branches, enabling product, sales, and stock tracking, automatic stock updates, validation to prevent overselling, and detailed sales records, with REST API endpoints for seamless data access and management.

ONLINE CAKE ORDERING SYSTEM

Developed a real-time cake ordering system with responsive customer interface, admin dashboard for order and cake management, activity logging, and seamless Firebase Realtime Database integration for live order tracking and updates.

ONLINE TO-LET SYSTEM

Developed an Online To-Let System for homes and offices, featuring property listings, real-time availability tracking, booking management, admin dashboard, user-friendly interface, and Firebase integration for live updates and seamless rental operations.
